NIGEL RICE TRANSPORT AND STORAGE

Written By : Jon Herring

We are Growing!

Nigel Rice Transport & Storage is continuing to grow — expanding our capabilities, services, and customer base across the UK.

Thanks to the trust and support of our clients, we've seen strong growth in demand for both palletised freight and hazardous goods transport. As a proud member of Palletline and The Hazchem Network, we're now handling more deliveries than ever, with improved efficiency and wider national reach.

Nigel Rice Transport & Storage is a long-standing and trusted member of the Palletline network – the UK's leading palletised freight distribution system. This partnership strengthens our service offering and ensures our customers benefit from one of the most efficient and reliable logistics networks in the country.

What is Palletline?

Palletline is a co-operative network made up of over 90 expert logistics companies across the UK, working together to provide seamless pallet distribution. Established in 1992, Palletline was the first network of its kind and continues to lead the industry in service quality, safety, and innovation.

Sustainability at Nigel Rice Transport & Storage

At Nigel Rice Transport & Storage, we recognise that sustainability is no longer optional—it's a driving factor in how modern consumers and businesses make decisions.

With 30% of consumers choosing not to buy from brands due to sustainability concerns, and 37% actively selecting brands based on their environmental impact, e-commerce retailers are now prioritising logistics partners who align with their values.

At Nigel Rice, we're proud to be part of the solution. As part of our ongoing commitment to reducing our environmental footprint, we've introduced an electric truck into our fleet—demonstrating our dedication to cleaner, greener transport. This investment supports our goal of delivering efficient, nationwide service while actively contributing to a more sustainable future.
