

June 2026

NEWSLETTER

June

We'd like to thank all of our customers, partners, and our incredible team for your continued support. Throughout the month, we've strengthened relationships with existing customers through site visits and meetings, and continued to deliver reliable general haulage, pallet distribution, warehousing, and hazardous goods logistics services across the UK.

We've also encouraged more customers to take advantage of our online customer portal, making it easier than ever to book, track, and manage consignments. To top it off, we were proud to attend the Palletline Ignite Awards in Edinburgh, celebrating the achievements and success of our network alongside fellow members.

As we move into July, we remain committed to investing in our business, delivering outstanding service, and supporting our customers every step of the way.

Thank you for being part of our journey. Here's to another successful month ahead.

At Nigel Rice Transport & Storage, our general haulage services continue to play a key role in supporting our customers' day-to-day operations.

We provide reliable, nationwide transport solutions, handling everything from part loads to full loads. Our experienced team works closely with customers to ensure deliveries are managed efficiently, safely, and on time.

Our focus remains on delivering a consistent, dependable service that keeps your goods moving and your business running smoothly.

THE HAZCHEM NETWORK

The Hazchem Network is the only ADR / Hazardous Goods Pallet and Parcel Network in the UK. We transport over 2000 pallets and parcels a night throughout the UK mainland and islands, as well as covering 27 European countries.

The basic Hazchem service is next day, meaning that all but the remotest parts of mainland Great Britain are delivered within 24 hours of the goods arriving at the Hazchem hub in Hinckley. We also offer an economy service where all areas are delivered within 48/72 hours. Members offer a range of additional services, over and above simple next-day delivery. We can accommodate timed services, booked in, AM & PM, tail-lift deliveries, small vehicle jobs and FORS.

Important Information!!

Please monitor our customer portal News Feed for weekly Fuel Surcharge updates.

Please monitor your emails for customer portal updates and new features.

Please make sure customer details and opening hours are updated in Qargo

palletline

Network Freight Distribution

On 27th June, the EICC in Edinburgh hosted an incredible evening celebrating the achievements of the Palletline network.

The Ignite Awards 2026 recognises outstanding success, innovation, and dedication across the network, while bringing members, partners, and colleagues together for a fantastic night of celebration.

WAREHOUSE SERVICE
